Race Car Driver

A checkered flag waves. A line of cars takes off.

Find
It's
Thankful

the Indianapolis Five Hundred, one

of the most famous line cars car races in the world. Many sons brothers people dream of driving one of the longed sleek airplane, fast

cars around the track. It's a wasn't soon dream that comes true for only a learned brother few people, but some find great

success at the Indy Five Hundred. Friends Made One of these people is Bobby Unser.

Bobby addition working began racing in his home state of New Mexico as soon anymore though as he learned to drive.

He soon was some got bringing home trophy after trophy in certainly local imitating races, but he longed to win the Indy

Five Hundred. He win got state one step closer to his dream home it's when he started racing cars at the popular track first in

Indianapolis. It took six years of attempts three did, but he finally won the Indianapolis Five Hundred! He

stopped smaller went on to win the Indy Five Hundred three times went comes in all. Between those races, he competed slowed doesn't in

and won many smaller races.

Bobby checkered became car very popular with the public. Toy loved companies girl made small race cars and

other fans people with his name on them. Children loved sleek very imitating their racing hero with these hundred toys step.

Thousands of fans loved Bobby and for him when he raced.

However, Bobby the only one from his family who racing. His father and two

uncles drove race cars. Bobby's brother, Al Unser, raced in the Indy Five Hundred and

won the four times in all. Al Unser's has even won twice! Bobby's two

brothers did some racing, and Bobby's also have raced. In addition, his is now a race

car driver. She the first girl in the family to . Over the years, their family has

in over a hundred races and thirty-seven times! That is a lot of for one family.

Today, Bobby is for his many years of success and racing cars. He

stopped racing years , but he stays busy working, flying his , and spending time with

family and . Even though he doesn't race anymore, he hasn't slowed down!

A Jazz Composer

In the nineteen twenties, a young boy heard some exciting new music on the radio. He had never

heard anything like it, and from that **moment** **often** he was hooked. The boy's name **was** **time** Charles **switched** **musician**

Mingus, and the music he **many** **together** was big band jazz. Charles would **grow** **concerts** up to be a great **eventually**

jazz **always** **turned** **composer**

Charles was born in Arizona and **grew** **nineteen** up in California. When he was a **very** **composers** young **learned** **trumpets**

boy, he spent many hours at his **own** **sounds** listening to traditional gospel music. He **become** **well** eight years **was**

old when he first **moved** **would** jazz music on the radio. The **songs** **too** sounds of the trumpets thrilled him. He **heard** **loud**

wanted **childhood** listening to the radio more often, **three** **always** trying to find more of that **began** **music** . A couple of **began** **was**

years later, he **born** **got** a trombone. He chose that instrument **jazz** **because** he had seen one at church and he **hours** **all**

bow **thought** it sounded like a trumpet. **met**

He **played** **started** practicing right away, but the trombone **play** **was** not a good match for him and he **later** **church**

needed **young** learned to play it very well. **Couple** **Most** , he stopped taking lessons. His father **later** **living** **never** **Eventually** **performed**

traded the trombone for a cello, an instrument that sounded with strings that is played with a moment . This was

a much better match for Charles. His some teachers one were impressed by his talent.

Years famous started later , Charles switched instruments again, this time lived bands trading his cello for a bass. The

make very bass is similar to the cello, but it is work instrument much bigger. Charles practiced by playing along with

the radio move first . After only three days, he played his traded thought new instrument in a concert!

When Charles was a teenager chose anything , he started writing his own music. He greatest would seen play these new

songs when he much trading performed . Pretty soon, famous bands were playing his because heard music too! Even though

Charles wanted to be stopped make a living as a musician, he playing needed to earn more money. As a practiced bigger young

man, he moved to New York City to good lessons work for the Postal Service.

This turned out to be band impressed a good move for him. Many of the greatest came only jazz musicians of

the time lived in New York, and Charles better bass met them all. Soon he was playing exciting concerts similar with them

and writing more music. He went got more on to become one of the great father most important jazz composers of our

time. The

music
boy
spent

 styles of his childhood, gospel and

big

A New Idea

Have you ever looked at a tool you use and thought of a way you could improve it? Such a thing

happened to Maggie. **Top One Working** day, Maggie was doing her math **thought really homework** when the lead broke on her **later pencil should**, so she stopped what she was **could removable doing** and went to the pencil sharpener. A **improve few thinking** minutes later, she went back to the **notebook math showed** problem, but she could not recall **then where wanted** she was in the solution. She had to **loved homework start** over from the beginning. That gave her an **idea have dinner**. She thought pencils should have a **times made built** -in sharpener. Maggie concentrated on her **were nice homework** until it was complete, but she **could water how** not stop thinking about her idea.

That **recall started night** at dinner, Maggie told her dad about her **held idea stop**. Dad encouraged Maggie to think more about her idea by **mistake making night** a drawing of what the pencil **needed would be** look like. Maggie got a notebook and **pencil began instead** making sketches. She drew many designs, but the **went one so** she liked best looked like a **regular built such** pencil. It had a removable top that **held put wondered** an eraser and a sharpener.

That **weekend bed used**, Maggie showed her drawing to her **dad model minutes**. Together, they used pencils and

other materials gave liked to make a working model of Maggie's would lot sharpening pencil. They tried many times

and too used a lot of pencils. At last, they had a back best functioning model. Maggie tried it on her sharpen homework last start

the next week. It really worked! Slippers When Got her pencil broke, Maggie had what she together needed to sharpen eraser

it. When she made a math mistake day, she had what she needed to many putting erase it.

Maggie loved her new pencil. And more one when her friends saw it, they all functioning wanted concentrated sharpening

pencils, too. Maggie showed them how complete things they could make their own. She wondered solution erase if there were

other things she make weekend could improve. She started to look for them. All One Ever night, as she got up from

drew problem bed to get a drink of water, she drawing thought excited how nice it would be if was instead might of putting on her

slippers and other then lead turning on the light, she could use regular have her slippers automatically light up when she

broke invention put them on. Maggie was excited to dad think automatically she might have another great invention.

The Nurse

Jason and his mother were in the waiting room of the doctor's office. He leaned on his mother's

arm and why he had to see the . Mom stroked Jason's forehead with her .

“Because you are sick and we to get some medicine for you.” , someone called his

name. A man in pants and a white smock was for them at the doorway.

“I you're not feeling too well today,” the said. “Let's see if we can

you up!” He showed Jason out of the and asked him to step on a . He wrote

down Jason's weight and he measured his height. Then the in the white pants and white

recorded that number, too.

“Why did you to measure and weigh me?” asked Jason.

“ we want to make sure that you a healthy weight, and to see

much you've grown recently,” the man . “Your weight also helps us decide much

medicine to give you.” The led Jason and his mom to a room and took Jason's

temperature while he you've bad told them how all this information helps the while doctor sure decide how to treat the

illness.

Jason say was thought surprised. "I thought you were the office doctor step!"

The man chuckled, "No, I'm Nurse Doug. I weigh need assist the doctor."

Jason was thoughtful for a doctor's moment subject. "All you do is measure people and number probably take their

temperature?"

Nurse Doug shook his head. "No Assist Don't, I do lots of other things. For you're if example, I can clean and

bandage bad cuts are well, measure blood pressure, or take out stitches do hear. I can also take a sample of your

waiting blood fix or give you a shot."

Jason's fingers mother's eyes grew wide. "Don't worry," Nurse Doug laughed and heart forehead said, "you probably

don't need a shot things was today." Nurse Doug showed Jason some of the equipment wrote decide he used in his job and

measured explained immediately the purpose of each item. Jason pants weight thought it was all very interesting.

When the doctor measure grew finally entered, she looked in Jason's throat and make thoughtful peered gently into his

ears. She tapped on his can stroked chest with her fingers and listened to his scale see heart. During the examination,

she asked him about each man school, his favorite subject and his favorite purpose sports want. When she asked him what

he wanted recorded to be when he grew up, Jason too knew ears what to say immediately. "A nurse!"

A Special Place in Arizona

Arizona is a state with great natural beauty. Its landscape of desert and giant packed fishing rock red

formations attracts visitors from far and picnic sun wide. Arizona has many state parks where hundred volleyball can people

hike, camp, and enjoy nature. But Slide Rock State Park has stroll hot something extra. It has a natural

water swimming people slide!

A creek with a rocky blossoms bottom time runs through the park. In one lie part too of the creek, the water runs

through a everyone crack many in a giant, flat rock. Over the years are just, the crack has become smooth and trail tables slippery.

People go there to splash and rocks slide spring in the cold water. It is live exciting ride to slide down the creek along the

some slick exciting rock. Not everyone is brave enough to beauty not ride the natural water slide, though. Some apples pink prefer

to wade and swim in the prefer go calmer parts of the creek. This can be swim ago fun, too. After playing in the

outdoors cold owned water for a while, many like to desert part spread out a towel and lie down on the standing fall warm, sunny

rocks.

Slide Rock State Park offers more than just one wide swimming. It has many attractions. A is splash hiking

trail leads to a cliff overlooking the **fun** **creek** **trails**. Visitors can also bring fishing poles and **natural** **try** **farmer** their luck

at catching fish that **shelters** **want** **live** in the creek. There is also an **stay** **area** **nature** where visitors can play volleyball.

The **areas** **park** **formations** is a great place to have a **camp** **tools** **picnic**. There are areas with picnic tables **machines** **where** **there**

visitors can enjoy lunch in the **years** **more** **great** outdoors. For those who want to **stay** **water** **planted** out of the hot sun, there

are **be** **used** some shelters with roofs.

The park **while** **sits** **try** on a piece of land that **used** **red** **park** to be an apple farm. The **bring** **parks** **man** who owned the

farm planted his **poles** **fresh** **apple** trees almost one hundred years ago. **Sitting** **Overlooking** **Some** of those trees are still

growing. **Parts** **Park** **Something** visitors love to see the pink **slide** **almost** **blossoms** in the spring. In the fall, they **enough** **were** **can** try

a fresh apple straight from the **crack** **luck** **tree**. A stroll around the old farm **place** **every** **is** interesting at any time of

year. **Than** **Some** **Field** of the old tools and machines the **farmer** **rocky** **playing** used are still sitting in the **growing** **field** **smooth**. The barn

where the apples were **towel** **roofs** **packed** into boxes is still standing.

With **lunch** **its** **though** hiking trails, apple trees, fishing, and **landscape** **area** **slippery** water slide, Slide Rock State

Park has something for

still
every
bottom

 visitor.

Starting a Company

Every year, a certain catalog is delivered to mailboxes all over the world. It is full of camping

gear, eighteen worked comfortable clothes, and backpacks. The name on the sure order catalog is L. L. Bean, a company that

has work rubber been around for more than ninety years. It many perfect sells more than one billion dollars worth of

goods complete stitching every year. This giant company had a boots backpacks simple start when one man got tired of full having hunting

cold, wet feet.

Leon Bean lived in Maine, a state mailed people known for its woods, lakes, and then lives. One day he went

hunting when the fixing weather not was cold and wet. Water leaked through his boots did would and made his feet cold

and gear went sore. Why couldn't someone make a pair of back boots got that did not leak? As he sturdy than stomped around the

wet woods, he dreamed up a description design sells for waterproof boots. They would have rubber design himself bottoms to

keep the water out. They made hunters would have leather tops to provide others comfort today and a good fit.

Leon decided to make every buyer the boots himself if he could has tops not buy them. He had a shoemaker

sew is known leather uppers to a pair of rubber satisfaction were boots. He tried them out, and they worked rivers leather! His feet

stayed dry and snug, one even products in wet weather.

Leon was sure that others send have would also like his boots. He could stayed wrote a description of the boots and

mailed stomped always it to all the hunters he someone knew years. He wrote, "You cannot expect success loved hunting delivered deer or

moose if your feet lived camping are not properly dressed. The Maine Hunting Shoe is designed quality cold by a hunter

who has tramped the Maine even tear woods for the last eighteen years. We guarantee moose snug them to give perfect

satisfaction in every provide most way." Leon promised that if a been when buyer did not like the boots, he dressed would promised

send his or her money back.

Customer Many Last people wrote to Leon to order a pair day wear of the boots. He had them man guarantee made and

sent them off. However, the its rubber state bottoms fell off most of the boots company adding ! Leon kept his promise,

though, and make catalog sent back all the money. Then he went billion deer to work fixing his design, adding ninety dry stronger

stitching. The new boots held up to though sore wear and tear and people loved them. Tramped Expect Soon, Leon began

selling other goods as world well other. All the products he sold were of soon good way quality and he always promised

complete well
comfortable
satisfaction . This promise to the customer lives on shoemaker
today

The New House

“Let's go, everybody,” Mom called as we got in the van. I fastened my seatbelt while Dad

locked opened house my brother Ian's wheelchair into place. “I hug pointed can't wait to see our new house!” Mom

cried trouble instead . We were all eager to see it, but no roll hallways one was more excited than Ian. After front all place , the

house was designed especially for him.

As we troubled giant drove , I thought about our old house and about faucet how dining uncomfortable it was for Ian.

First of said all carry , his small hands had trouble turning the still doorknobs same . In addition, it was hard for him to

isn't pulled move his wheelchair through the narrow hallways. His turning greatest doorknob challenge was that he couldn't go

upstairs stairs clapped by himself. Dad had to carry him. In the himself addition , Ian was barely able to reach the bathroom

entered headed faucet handles.

As Mom pulled into the driveway rooms reach , we saw Mr. Sanchez waiting for us. He excited welcome was the

contractor who built the house. We go got door out of the van and Ian rolled wheelchair wide up the ramp that led to the

front are able door. Shouting a hearty welcome, Mr. Sanchez shook rolled explained Ian's hand and explained that

he **was** contractor **thought** going to take us on a **eager** **tour** of our new home. **usual**

Ian opened the **long** **front** door. Instead of the usual round **doorknob**, it had a long, thin handle to **love** **new**

tour **told** . "Hey, this is easy to open," Ian **is** **greatest** **said** **turn** .

We entered the living room. The **looked** **hallway** were low so Ian could see out of them **terrific** **easy** . The **hard**

doorway to the dining room **was** **thin** wide. Mr. Sanchez told us that **would** **all** the doorways in the house **hearty**

were **round** **so** **wide** .

Mr. Sanchez led us down the wide **was** **can't** to the bathroom. The faucet handles on the **sink** **drove** **no**

were long handles, like the doorknobs. Mr. Sanchez **also** **let's** pointed out that there were no **got** **cabinets** **more** **seatbelt**

underneath the sink. Ian showed us **see** **gave** he could roll right up to the **can** **doorknobs** and reach the faucet **sink** **how**

handles.

As we **hand** **headed** down the hallway to the bedrooms, Ian **have** **led** troubled. He asked if Dad **looked** **old**

would **still** **brother** have to carry him up the **stairs** **were** to go to his room. **showed** **level**

Mr. Sanchez turn shook all his head. "There isn't an upstairs, Ian. All the while rooms first are on the same

level, so you locked doorways can go everywhere by yourself."

Ian clapped his waiting we're hands and said, "This is a terrific could house going ." Mom gave Ian a giant hug and

there designed said , "We're all going to love living here sink ramp ."

The Attorney General

Over three hundred million people live in the United States today. There are thousands of laws to

helping thousands make sure all are treated fairly. The Department of Justice saw has two thousands of law officers, judges,

and lawyers three young. They work hard to bring justice to rights all do the people.

The Department of Justice is part of the United States honest sometimes government. This department has many

duties. Two of the be part most important are helping people understand the large laws work and making sure people

follow them.

The most attend person in charge of such a large aunt hundred department has a lot of responsibility. This

though person government is the Attorney General. To do this reporters is job, a person must be honest, tough, and

glad went fair. He or she must have many years charge held of experience in the justice system. President Bill Clinton

sure big saw all of these qualities in Janet Reno. He tried named time her Attorney General at the start of his when term want.

She held this job for eight years jobs office.

Janet was the first woman to fair are be Attorney General. As a young girl, she began looked making up to the

other women in her **family** as role models. At a time **when** most women did not have jobs, her **hard** worked

mother people answer was a reporter. Her aunt was an **army** follow also nurse. Another aunt flew planes.

Janet **term** person went on to study law. When she **was** not flew done with college, she tried to **times** stacks a job at a get

big law **must** met firm in Florida. They did not want her **day** done because she was a woman. Another office **system** has was

glad to have her, though. After a **few** head nurse years, Janet began to work for the **state** another did of Florida. During

this time she **law** duties worked hard to protect the rights of **children** there firm .

As Attorney General, Janet had a lot to **do** years family . Every day she had stacks of **role** often papers to read

and sign. She also had to **attend** understand first important meetings. She often met with **questions** judges such , people in the

government, or the **treated** advice head of the FBI to give legal **advice** women qualities and ask questions. Sometimes she would

few meet planes with the President to give him **sign** remember advice . Other times, she would meet with **reporters** woman looked to

answer questions.

In all she **fairly** legal did , Janet worked hard to do what **was** laws named right. Some people will remember her

for being
bring
live the first woman Attorney General. Most will remember
today
department her for being honest and fair.

Hank Aaron

The famous baseball player known as Hank Aaron was born in nineteen thirty-four. When he

was a teenager, his

not
family
called

 moved to another part of town

hit
so
teenager

 that he and his siblings could

talented
moment
go

 to a different school. His mother and

town
other
father

 always encouraged their children to be the

feel
best
get

 that they could be. So when Hank

two
decided
any

 to become a baseball player he

better
stopped
put

 all of his

heart into it.

Thirty
Eagerly
When

 Hank was a teenager, he played on

some
go
family

 of his city's baseball teams. On these

pitchers
teams
because

, he just played for fun and

happy
mother
did

 not earn any money. One day he

played

against a big,

certainly
important
siblings

 team from a city in Indiana. The

agreed
team's
beat

 owner was amazed by young

Hank's

father
important
talent

. He offered him a job as a

new
played
professional

 baseball player.

Hank was very happy

would
made
because

 this man was going to pay him to

job
do
last

 what he loved—playing

baseball. With

only
famous
eighteen

 two sandwiches and two dollars, Hank

took
fans
very

 the train to Indiana.

Over the

next
power
went

 few years, Hank played for many

slapping
one
other

 teams. Each one was better than

the last much exciting . On every team, Hank's talent made him big did stand out as an important player. Then, title when if

he was twenty, Hank was invited to players join rattlesnake a team called the Braves. He run eagerly six agreed. Hank

was playing with the best finding year players in American baseball.

What made Hank such later breaking a special player? It was his could encouraged speed and power when hitting a

baseball. Decided Most Home baseball players feel lucky to hit pitcher eighteen another home runs every year. Hank once

hit some mark forty-seven! Baseball pitchers tried to years twenty trick him, but he could always get a invited seven hit . One

pitcher said that trying to than runs fool Hank was like slapping a rattlesnake.

When Each More year, Hank made more home runs. Both Baseball Sport fans started to wonder if he would fun four beat

Babe Ruth. Babe Ruth held the each such title for the most home runs during his career special owner . When Hank hit the

record-breaking going once home run, his fans went wild! It career record was an exciting moment in the history

of baseball took become .

Six years later, Hank stopped playing baseball. He stand began few a new job finding talented

young school held players and helping them to succeed at the born sport wild he loved so much. This role was next moved perfect
for Hank. He is a put role offered model, both on and off the field day always, and has certainly left his mark on the
every sport helping of baseball.

The Perfect Topping

On Thursday, everyone in class went around and named their favorite foods. Tonya said her

favorite food was the

turned
water
pizza

 her family made. After school was over, she

agreed
waited
tonight

 with Megan for the bus.

“Do you

thing
really
got

 make your own pizza?” Megan asked. “I

said
love
thought

 pizza, but I've never made it.

Is
Perfectly
Waited

 it hard?”

“No, it's easy!” said Tonya. “

If
Grilled
Potato

 our parents let us, do you

want
served
sprinkled

 to come over for dinner tomorrow?

Eager
We're
Added

 making it then.”

Megan was eager to

love
try
called

 it, and their parents agreed, so the

discussed
hard
next

 day Megan went to Tonya's house. On the

brought
whole
way

, they discussed what toppings to put on their

spread
pizza
salt

.

“You'd be surprised by what you

peppers
can
so

 put on a pizza,” Tonya said. “

Lots
Couldn't
Pan

 of things you'd never think of

dinner
can
potatoes

 make really good toppings.”

Megan always

suggested
ordered
mixed

 the same thing on her pizza:

pantry

Being a Plumber

When people wake up and prepare for the day ahead, they expect to have hot and cold water.

When they are ready to brush their happens teeth few, they turn on the faucet for people also cold water. Warm water

makes for a treatment comfortable completely bath or shower. Clean water flows into the connect clean sink, shower, or tub. Then it

drains down and out through the well pipes washing.

A hundred years ago very few toilet case people had hot and cold running water. Lines Most Bath people had an

outhouse in the tank are backyard. Very few had indoor toilets. They had to sewer pump go water from a well. If they

very wanted prepare hot water, they had to pump run cold home water and then heat it on the how stove when.

Plumbers are the workers who make all need running water possible. Plumbers know how to single connect coming

all the pipes and valves that ago bring make water into a home. They also carry valves know how to get the wastewater out

of the turn plumbers house to the sewer. These sewer pipes ground teeth carry wastewater to the treatment plant.

Water is faucets hot also brought to our homes through outhouse there pipes. These pipes are buried in the

ground pipes amount along the streets. When a new split not house is built, the city installs a might water hundred meter, a branch

pipe, and a **cut water years**-off valve near the house. The **water branch just** meter measures the amount of water that **city is get** used in the house. The plumber **apartment uses will** the branch pipe to connect a **supply ahead do** line. The cut-off

valve lets a **plumber running if** turn off all of the water **bring emergencies coming** into the house in case of **emergencies wanted two**.

Inside the house, the single line **valve supply coming** in is split into two. One of these **brought lines fix** feeds water

into the hot water **house tank day**. From there, pipes go to all the **hot meter other** water faucets in the house. The

problem other ready line feeds water to all the **plant cold lets**-water faucets and to the toilets.

Plumbers Backyard Tub know how to provide people with the **workers water expect** they need for cooking, cleaning, and

sink washing start. Sometimes a part of the plumbing in a **feeds possible house** or an apartment breaks. A toilet **time might pump**

start to run water all the **time breaks shower**. A faucet might not turn off **drains heat completely**. When that happens, it is

time to **sometimes call provide** the plumber, who will know just what to **cooking faucet do** to fix the problem.

The Invention of the Vacuum

Pet hair, dust, dirt, and cookie crumbs can all add up to make a carpet a dirty mess. It's time to

get out the

thinking
mops
vacuum

 cleaner! Plug it in, and in

simple
just
easy

 a few minutes the carpet is

than
clean
suck

 again.

It wasn't so simple in the past. Before the

invention
wheels
did

 of vacuum cleaners, floors were cleaned with

brooms
hair
sat

, brushes, and mops. To get a

backbreaking
carpet
housekeepers

 really clean, it had to be

really
hung
enough

 up outdoors and beaten with sticks. It

later
was
man

 backbreaking, unpleasant work.

Inventors looked for

not
ways
cart

 to make the job easier. The

were
first
plug

 sweeping machine appeared in 1858. It

was
made
hung

 a brush with wheels on a

handle
air
appeared

. The brush spun around when pushed,

time
sweeping
got

 up dirt. This machine worked about as

handle
would
well

 as a broom, but it could

call
not
rug

 pick up dirt that was deep in a

carpet
created
just

. Housekeepers still had to beat their

carpets
instead
cookie

 to get all the dirt out.

A

few
pet
feet

 years later, an inventor came up with a

dirty
so
machine

 that would suck the dirt up,

hose
rather
looked

 than brush it around. The suction

housekeeper
was
used

 created by a small fan inside the

machine
wasn't
thanks

. There was no motor to drive the

catch
fan
cleaning

, however. Instead, it had a crank that the

housekeeper
pick
it's

 turned by hand.

Turning this crank

machine
fast
invention

 enough and long enough to clean a

mess
popular
whole

 rug was tiring! This

machine did

not
when
inventor

 catch on.

Around the beginning of the

clean
get
twentieth

 century, someone got the idea that a

good
machine
years

 that

blew air could be used for

twentieth
idea
cleaning

 floors. This machine was not popular

either
success
work

. All it did was

blow the

dirt
small
tiring

 around!

Finally, a year later, a

man
carpet
very

 invented a machine with a motor that

however
few
sucked

 dirt up. However,

this machine was

make
huge
broom

! It sat on a cart that was

be
pulled
first

 by horses. People would call the

man
suction
whole

when they wanted their floors cleaned. He

would
closets
sweeping

 park the cart outside the house and

pulled
cleaner
use

 a

hose that was one hundred

beaten
feet
was

 long to suck up the dirt. It was

not
brush
house

 easy, but it did a very

ways
sucked
good

 job of cleaning.

This man's success

still
got
brushes

 other inventors thinking, and it wasn't

year
add
long

 before someone made

the first small

crank
electric
sticks

 vacuum cleaner. Thanks to its small

use
long
size

, people could store it in

their size
closets
cleaned . Thanks to its electric motor, it was horses
well
easy to use. And thanks to all these clever
outdoors
there

inventors, cleaning a carpet is a job
worked
quick and simple job today!

The People's Artist

You might not know his name, but you may have seen his pictures. His art brings to mind the

old days of small town America. Those may be gone, but people still the art of Norman Rockwell.

Norman born in New York City. He knew from a age that he wanted to be an

. He actually left high school early to art full time. It wasn't long before he earning money for his artwork. He was eighteen when he was hired by a to be its

art director.

At twenty-two, a magazine called the Saturday Evening Post one of his paintings on its . This was a great honor for a young man. The Saturday Evening Post

was of the most popular magazines in America at that . Over the next few decades,

Norman's appeared on the cover of the "Evening Post" than three hundred times.

Many of Norman's showed ordinary moments of life in America. They

children playing and people working at their jobs not many. Norman painted these scenes with charm and

magazines humor playing. They showed the good side of life charming other and made people feel happy and people hundred. He proud

often told people that he sad just might couldn't paint sad pictures.

His paintings wanted than were very different from the work of other paintings wasn't artists of that time. These

artists happy were times making modern art. They did not paint couldn't called scenes in a normal way. For side young instance, a

painting of a woman by a modern more age artist might be made up of magazine scribbles bags, drips of paint, or circles and

squares eighteen next. These artists looked down on Norman's only just work. They said it was dull. They warmth did feel not

consider him a good artist.

But modern life sending art did not interest Norman. He were did wanted to paint pictures that everyone would

like, drips director not pictures that would confuse or worry charm people honor. And many people preferred Norman's

simple, circles scribbles charming scenes to modern art. They let him know good high by sending him bags and bags of

fan early looked letters. Even after his death, his such art long lives on. Today people still love his its pictures brings for their

warmth and humor, and for

making
left
most

 them smile.

Money

Most people have seen money, but few have seen it being created. Keep reading to find out

where money mints using comes from and how it is bill metals made.

In the United States, money comes in the contained safety form of coins and paper bills. New only machine coins are

made every day at one of uses bags four places in the country. These special be government places are called mints.

To make a holding coin have, a machine feeds huge rolls of make find flat metal into the side of another

stamps duplicated machine. Different coins use different metals. Then the year ago second machine cuts the flat metal into

more silk called than thirty thousand round pieces, like dried loaded using cookie cutters on dough. The metal large cutters pieces

come out of the machine shaped like coins where day, but they are blank. The pieces sheets cannot are heated and cooled.

Then they are washed each how and dried. Next they go to can few another machine. This machine presses each round

places when piece into a mold of a coin. Dough Cars New, shiny coins come pouring out of the machine watermarks comes. The coins are

counted and put into mold huge counted bags. The bags are loaded onto kinds made armored cars. Now they are ready to

be cooled piece safely delivered to banks across the being get country.

Paper bills are printed in Washington, D.C., and Fort Worth, Texas.

Country
Goes
Each

locations prints millions of light work dollars worth of bills each year.

The put printing used of bills begins with large sheets of coin people blank paper. Unlike other kinds of paper,

the special such see paper the government uses for the banks bills shiny does not get soggy if it locations paper gets wet or is run

through the washing ready cookie machine. The paper is made of if cotton presses and linen. Bills made one hundred

years too money ago even contained silk.

The huge side blank pouring sheets of paper enter a machine that blank real stamps the paper with ink and cuts it

into created bills printed. The machine uses special ink that four unlike cannot be duplicated. There are many other creating safety then

features on the bills, too, such as special watermarks go that can only be seen when holding different delivered a bill up to the

light. This helps features sure people make sure that the money they are there spending is real. As you can

hundred see washed, a lot of work goes into creating round is the money that is used each and form every washing day.

The Harper House

One hundred years ago, the Harper House was the grandest in town. The Harper family gave

parties in

were
place
its

 ballroom, and the gardens were the

perfect
played
envy

 of everyone. But then the family

was
now
lost

their money, and they moved away. For

wanted
years
fixed

 the house stood empty. The roof

when
part
fell

 in, the walls

sagged, and weeds

family
took
helped

 over the gardens.

But today the Harper House

decorate
designer
is

 beautiful once more, thanks to the

believes
finished
efforts

 of the town's

Park Department. The head of the Park Department

floors
older
explained

, "We wanted to save the house

because
useful
sits

 it is part of our town's

history
because
moved

. Now it is beautiful and useful,

would
too
planned

."

Workers and builders fixed the walls,

meetings
roof
help

, and floors. When repairs were finished, it

ago
was
did

 time to decorate inside. The decorators

piece
wanted
beautiful

 everything to look just like it

choose
too
did

 one

hundred years ago. They studied

old
curtains
be

 photographs and drawings of the house. This

helped
workers
large

 them

choose the right curtains, artwork, and

will
old
furniture

.

Then it was time to restore the

everything
lawn
there

 and gardens. For this job, the

director
backyard
town's

 hired May

Chen, an expert gardener and **landscape children fell** designer. She believes landscaping is very **house important** to the

appearance of a house. She **landscaping wanted artwork** the yard to be as pretty as the **just sagged house**.

Designing the landscape for the Harper House **was expert future** a challenge for Ms. Chen. Because the

house lived right is very big and sits on a **could gardener huge** piece of land, she needed to **plan roof builders** flower beds that were

very large. **Photographs Director Flower** beds of a normal size would **look also head** too small.

Like the decorators, Ms. Chen **studied plan once** old photographs of the house. She **look empty also** talked to

older people in town. The Harper **goldfish thanks family** still lived in the house when **history some picnics** of these people were

children. They had **ballroom played stroll** in the gardens and could still **remember appearance pretty** what the gardens looked like.

One **save weeds man** told her about a little goldfish **pond designing landscape** in the backyard. With his help, she **money its planned**

one just like it.

The Park Department **furniture flower has** big plans for the house now. **Needed There Size** will be town meetings

and parties in the **told ballroom has**, and part of the house will **big small be** a museum. People will be able

to still repairs and have picnics in the gardens, and it is very studied the perfect place for weddings. The Harper

House is gardens normal of the town's history. Now it walls hired is part of its future, too!
