

Acadience™ Reading Diagnostic: CFOL

What is Acadience Reading Diagnostic: Comprehension, Fluency, & Oral Language (CFOL)?

Acadience Reading Diagnostic: CFOL is an advanced diagnostic assessment tool designed to provide additional in-depth information to help improve instruction for students who are performing well below expectations (e.g., Well Below Benchmark on Acadience Reading K–6) or performing below grade level in grades K–6. However, it can also be used with older students with very low skills. The measures are untimed and designed to be user-friendly and adaptable across instructional settings.

CFOL assesses the following skills:

- Story coherence/text structure
- Listening and reading comprehension
- Vocabulary and oral language (e.g., formal definitions, morphological awareness, figurative language, syntax)
- Fluency with expository and narrative texts

Why use Acadience Reading Diagnostic: CFOL?

CFOL helps educators:

- Untangle the many possible reasons why a student may struggle with comprehension
- Better target interventions to the skill areas that support reading comprehension

These relatively brief diagnostic assessments are cost- and time-efficient, yet comprehensive enough to provide specific information to better target or differentiate instruction for students who are struggling in their reading development.

What training opportunities are available for CFOL?

An online workshop is available for CFOL. The cost is \$129 per person for a 30-day subscription. A training book containing the slides, activities, and other useful resources is included in the cost. The workshop is approximately 4.5 hours in length. To sign up, visit: <https://www.acadiencetraining.org/>

Acadience Reading Mentors who complete training and pass a quiz will receive an endorsement to their certificate for CFOL training so they can use our official materials to train others.

Onsite and live webinar options are also available. For more information, email info@acadiencelearning.org
