## Acknowledgements

We would like to thank John Wilson, Research, Evaluation, and Assessment Director for the Tempe, Arizona school district of his support in securing AzMERIT data and in consulting with us about data results.

In addition, we would like to thank David VanLoo, Director of School Improvement in the Bend-LaPine School District for his support in facilitating data transfer and in collaborating on data interpretation.

Finally, the DMG staff who daily keep our research moving forward.

## Purpose of the Study

The purpose of this study is to examine expectations for reading proficiency in context of Common Core State Standards assessments (CCSS) such as AzMERIT and Smarter Balanced and how DIBELS Next can inform decisions about student skills.

## Methodology: Participants

### Large School District, Arizona

- Assessment: AzMERIT ELA
- 2014–2015 School Year
- Grades 3–4
- Number of schools: 16
- $n = 1,256$  (664 third-graders, 592 fourth-graders)

### Large School District, Oregon

- Assessment: SBAC ELA
- 2015–2016 School Year
- Grades 3–5
- Number of schools: 18
- $n = 2,138$  (758 third-graders, 696 fourth-graders, 684 fifth-graders)

## Demographics

District 1 Demographics (OR) 2015–2016      District 2 Demographics (AZ) 2014–2015

## DIBELS Next Achievement Standard

Performance at or above the **40th percentile** on any high quality reading outcome measure was the achievement standard used to represent **adequate** reading proficiency for DIBELS Next.

For DIBELS Next, the Group Reading Assessment and Diagnostic Evaluation (GRADE) was used as an outcome measure representative of high-quality, group administered, standardized, norm-referenced reading assessments.

For example, on the SBAC, a score of **2410** is at the 40<sup>th</sup> percentile on SBAC national norms in third grade.

Accessed: 2018-02-06

10

## DIBELS Next Benchmark Goal

DIBELS Next Benchmark Goals are designed to identify the level where the odds are in favor of that student achieving later reading outcomes.

- ▶ **At or Above Benchmark:** Odds are generally 80% to 90% of achieving subsequent benchmark goals and important reading outcomes. **Student is likely to make adequate progress with effective core instruction.**
  - ▶ **Well Above Benchmark:** 80<sup>th</sup> percentile or higher
  - ▶ **Above Benchmark:** 60<sup>th</sup> percentile
  - ▶ **At Benchmark:** Benchmark goal to 59<sup>th</sup> percentile

11

Likelihood of Meeting Later Reading Goals	Benchmark Status	Benchmark Status Including Above Benchmark
>99%	<b>At or Above Benchmark</b> overall likelihood of achieving subsequent early literacy goals: 80% to 90%	<b>Above Benchmark</b> overall likelihood of achieving subsequent early literacy goals: 90% to 99%
95%		<b>At Benchmark</b> overall likelihood of achieving subsequent early literacy goals: 70% to 85%

## Conclusions:

The DIBELS Next Benchmark Goal and cut point for risk are working well and as designed with respect to the **DIBELS Next Achievement Standard.**

- **At or Above Benchmark:** Odds are generally 80% to 90% of achieving subsequent benchmark goals and important reading outcomes. **Student is likely to make adequate progress with effective core instruction.**
- **Below Benchmark:** Odds are generally 40% to 60% of achieving subsequent benchmark goals and important reading outcomes. **Student is likely to need strategic support to make adequate progress.**
- **Well-Below Benchmark:** Odds are generally 10% to 20% of achieving subsequent benchmark goals and important reading outcomes. **Student is likely to need intensive support to make adequate progress.**

## DIBELS Next Scores for AzMERIT Standard

Grade and Time of Year	DIBELS Next Composite Score corresponding to <b>.40 or less</b> estimated probability of meeting the AzMERIT ELA achievement standard	DIBELS Next Composite Score corresponding to <b>.60 or greater</b> estimated probability of meeting the AzMERIT ELA achievement standard
Grade 3 Beginning of Year	282 (57)	327 (73)
Grade 3 Middle of Year	350 (60)	397 (76)
<b>Grade 3 End of Year</b>	<b>415 (63)</b>	<b>468 (80)</b>
Grade 4 Beginning of Year	355 (65)	409 (81)
Grade 4 Middle of Year	402 (67)	454 (83)
Grade 4 End of Year	475 (70)	526 (85)

Note. Percentile rank corresponding to DIBELS Next Composite Score is in parentheses.

## DIBELS Next Scores for SBAC Standard

Grade and Time of Year	DIBELS Next Composite Score Corresponding to <b>.40 or less</b> estimated probability of or exceeding meeting SBAC ELA achievement standard	DIBELS Next Composite Score Corresponding to <b>.60 or greater</b> estimated probability of meeting or exceeding SBAC ELA achievement standard
Grade 3 Beginning of Year	203 (28)	248 (43)
Grade 3 Middle of Year	276 (32)	317 (47)
<b>Grade 3 End of Year</b>	<b>342 (37)</b>	<b>378 (50)</b>
Grade 4 Beginning of Year	258 (32)	313 (50)
Grade 4 Middle of Year	313 (33)	360 (51)
<b>Grade 4 End of Year</b>	<b>382 (34)</b>	<b>426 (51)</b>

Note. Percentile rank corresponding to DIBELS Next Composite Score is in parentheses.

## Conclusions: Relation to State Outcomes

1. The correlations between the DIBELS Next Composite Score and the SBAC ELA and AzMERIT ELA scores were strong, ranging from .71 to .77.
2. The DIBELS Next Composite Score explained more variance in outcomes than DORF Words Correct alone, ranging from 5% to 9% additional variance explained.

## Conclusions: DIBELS Next Benchmark Goals

3. The DIBELS Next Benchmark goals function well for the purposes for which they were designed. Students who are at or above the DIBELS Next Benchmark Goals are likely to score at or above the 40<sup>th</sup> percentile on high quality reading outcome measures.
  - The DIBELS Next Benchmark goal has always been intended to represent **the lowest level of adequate reading.**
4. The DIBELS Next Benchmark goals are **not sufficient** to place the odds in favor of meeting or exceeding the **SBAC ELA achievement standard** or the **AzMERIT ELA achievement standard.**

3/14/2018

© 2018 Dynamic Measurement Group, Inc. / NASP, Chicago, IL

## Conclusions SBAC ELA Achievement Standard

5. Students who score **Above Benchmark** on *DIBELS Next* are likely to meet or exceed SBAC ELA achievement standards
6. Between the **Benchmark Goal** and the **Above Benchmark** level, we cannot make a clear prediction.
7. Students who scored **Below Benchmark** on the DCS at any time of year are unlikely to meet the SBAC ELA achievement standard.
8. Students who scored **Well Below Benchmark** on DCS have very little chance of meeting the SBAC ELA achievement standard.

3/14/2018

© 2018 Dynamic Measurement Group, Inc. / NASP, Chicago, IL

## Conclusions: AzMERIT ELA Achievement Standard

9. Students scoring **Well Above Benchmark** (80<sup>th</sup> percentile) on *DIBELS Next* are likely to meet or exceed the **AzMERIT ELA achievement standard,**
10. Between the **Above Benchmark** level and the 80<sup>th</sup> percentile, we cannot make a clear prediction.
11. Students who score **At Benchmark** or below on *DIBELS Next* are unlikely to meet the AzMERIT ELA achievement standards,
12. Students who score **Below Benchmark** or **Well Below benchmark** have very little chance of meeting the AzMERIT ELA achievement standard.

## Implications for Practice

In short, challenge each student.

1. If a student is in the **Below Benchmark** or **Well Below Benchmark**, go for **Benchmark** (go for the **Green**)
2. If a student is **At Benchmark**, go for **Above Benchmark** (go for the **Blue**)
3. If a student is **above benchmark**, go for the **80<sup>th</sup> percentile.**

## Limitations

- ▶ These data represent the way DIBELS Next is used in practice.
- ▶ Things we do not know:
  - Assessment fidelity
  - Assessor training
  - Level of instructional support
  - Changes in levels of support
- ▶ Data from two school districts, potentially limiting generalizability.

## Thank YOU!
