The Cuttlefish

On our class trip to the aquarium, we walked through the exhibits. As we stepped inside one

exhibit, I

amazed

stopped

trip

 and looked around, amazed. The walls and

ceiling

male

pass

 were made of glass, and all

around us

was

some

exhibit

 water. Fish and other animals darted and

let

glided

it's

 by. They seemed like they had

no

plants

even

 idea that we were there. I

nearby

felt

would

 like I was in another world. I

aquarium

could

animals

 tell that the rest of

the

catch

unusual

class

 felt the same way, and we

stepped

related

surrounded

 to the side to let others

pass

exhibits

isn't

 by while we

gazed at the

fade

world

red

 that surrounded us.

As I looked around, I

glass

water

noticed

 one animal that I couldn't name, and I

startled

couldn't

is

 always see,

either. When it moved, I

made

could

glimpse

 catch a quick glimpse of it, but

drifted

when

heard

 it was still it seemed to

gray

fade

watched

 into the nearby plants and rocks. A

museum

all

head

 worker saw what I was looking at.

Grinned

It's

Rest

 very hard to see, isn't it?" she

really

said

use

 . "That's called a cuttlefish, but it

that's

walls

isn't

 really

a fish at all. It's

related

making

stepped

 to the octopus. See the tentacles

called

coming

changing

 out of its head? What makes the

more

cuttlefish

can

 unusual is that it is very

animal

good

disguise

 at making itself look like its

class

hide

surroundings

 . It can

change the colors, patterns, and were even person the textures of its skin. Watch.”

The cuttlefish tentacles next was drifting in the water above museum some felt thin yellow plants. Its skin was

hard striped one yellow and gray, but as it fooled moved could over some red seaweed, it gradually look changed seemed. Now the

stripes on its skin were way see gray and red.

“It does that to teacher saw hide from animals that would want to eat world others it, but for other reasons, too,”

the coming noticed museum worker said. “Some male cuttlefish disguise walked themselves patterns as females to try to get

stopped thin close to the other females. Others use the looked changing worker patterns of their skin to attract prey very textures.

Cuttlefish are masters of disguise.”

I striped always watched as the cuttlefish drifted along. Suddenly, I heard gazed seaweed my teacher call my name, and I

looked fish now up, startled.

“We are about to while go name to the next exhibit,” he said. “What surroundings are prey you looking at?

Those plants?”

I

yellow
grinned
want

 . The master of disguise had fooled

one
gradually
was

 more person.
